SUMMARY

Enthusiastic and detail-oriented QA Engineer with a strong foundation in software testing with hands-on experience in manual, automation, and API testing. Eager to contribute to high quality software, committing to continuous learning and growth in the field of software quality assurance.

TECHNICAL SKILLS

Proficient in test plan development, test case creation and bug reporting with expertise in various testing methodologies including manual and automation testing for both API and UI automation.

- **Testing Tools:** Selenium WebDriver, Playwright, Postman
- **Languages:** Java, JavaScript, MySQL
- **Bug Tracking:** Jira, Trello
- **Version Control:** Git, GitHub

CERTIFICATES :

- **Generative AI in Testing** - Udemy
- **API Test Automation with Postman** - Test Automation University
- **Introduction to Playwright** - Test Automation University

PROJECT AND WORK EXPERIENCE

Automation of OrangeHRM

- Successfully executed an automation project of OrangeHRM (Human Resource Management System) using Selenium
- Automation Testing Tools: Selenium Web driver using Java and TestNg Framework.

API Testing on Ecommerce Website (Basketball Shoes Store) - Project

- Contributed in Frontend Part as a design part using HTML, CSS, JavaScript and ReactJs.
- Performed end-to-end API testing using Postman for critical workflows including:
 - User registration and login
 - Product listing and cart operations
 - Order placement and checkout
- Verified API response status codes, payloads, and error handling
- Validated authentication and authorization using Bearer tokens
- Analyzed API performance and response times to identify backend bottlenecks
- Verified database updates using MongoDB to ensure data consistency

Routine Management System - Project

- Built responsive UI components using HTML, CSS, and JavaScript
- Created and executed manual test cases for multiple user roles (Admin, Teacher, Student)
- Conducted functional, regression, and UI testing for:
 - Class scheduling
 - Conflict handling
 - User dashboards
- Logged and tracked bugs using JIRA, collaborating closely with developers
- Performed API testing using Postman to validate backend data flow
- Verified schedule integrity and database updates using SQLite queries

EDUCATION :

BSc CSIT (2021 – Present)

Sagarmatha College of Science and Technology

+2 Science (2019 – 2021)

ED-Mark Academy

VOLUNTEER :

- **Vice-President**, Sagarmatha College of Science and Technology
- **Basketball Coach**, Wisdom English Academy
